## VDC Trading Ltd – Coronavirus Statement 25th March 2020

To all of our highly valued customers, employees, suppliers and friends:

What has become apparent at an alarming rate over the last few weeks is that our society has been turned on its head. The business world is floundering and the government has taken radical and unprecedented steps to instill some stability in order for us to ride out the storm with hopefully reduced impact on all of our wellbeing.

Very scary and uncertain times both socially and commercially but I believe the only option we really have, for those who are able, is to remain positive and strong and care for who & what really matters.

In the workplace the health and wellbeing of our staff is always of the upmost importance as well as those who will be delivering goods, receiving goods and visiting.

Based on Government guidelines and a more general social responsibility VDC has taken the very difficult decision to suspend day-to-day trading from today, 25<sup>th</sup> March, at 6pm.

The business suspension includes all operational support functions such as goods-in, stores and dispatch. This means that ALL outstanding purchase orders previously presented from VDC are now put on hold until further notice.

PLEASE DO NOT DESPATCH ANY MATERIALS until we advise that our facility has re-opened and we are operational – any goods shipped without VDC's consent cannot be delivered as the facility is closed.

Please note:

- **VDC will not accept any liability for goods shipped whilst our facilities remain closed.**
- **VDC will not accept, nor process, any invoices for goods that have not been received by VDC before the close of business Wednesday 25<sup>th</sup> March 2020 or whilst our facilities remain closed.**
